President's Page - A.K.A. Mindless Meanderings by Doug Jennings

So many things to write about, and so little space to give all of them justice! The club has a very busy and ambitious agenda for this October issue of The Silver Bugle. There were a couple of contests that had a number of entries to tabulate and to determine a winner for each contest. The price of silver at the close of August 31, 2015 was one of the contests. Another contest was the writing contest, and who would submit the best essay about his/her favorite IASAC club bar. Both of these contests had a lot of participants, and both contests were very close. The results will be announced at the October 3, 2015 IASAC annual meeting in Greensboro, NC along with this year's winner of the Duane Spellman Award.

I would be remiss if I didn't include a very heartfelt note by Randy Guberman that was enclosed with his votes for the writing contest. He asked that I include it in this issue of The Silver Bugle. Here's Randy's note. "Hi Doug! I sure hope Nancy can run again for a position she feels comfortable with. She just needs a vacation for now. I hope so! She is a missing wheel on our continuous journey down the path to the club's future!" Thanks, Randy, for that endorsement of Nancy and all of the effort she gave to IASAC in her years of service to the club! (Also, I wanted to thank Randy for his very generous donation and sending the club 4 million-five hundred thousand in a donation. Just as soon as I find a place that will accept "America The Beautiful" and "Free And Accepted" million notes and "Leave It To Beaver" one hundred thousand notes, the club will reduce or eliminate all dues for the future!) (Notice the word "dollars" is missing from the description!)

Congratulations to one of IASAC's members who won a number of awards for his exhibits at the 2015 ANA's World's Fair of Money this summer. Simcha Laib Kuritsky did very well with his exhibits in the following categories: 1st place Tokens-"Boys for Sale," 1st place Engraved Coins, and 1st place Numismatics of Africa and the Middle East. Another one of IASAC's members, Dan Freeland, placed 2nd in the U.S. Paper Money category. For those of you that have ever exhibited at a coin show, you know what an honor that is to place. When you add that this was at an ANA national show, that is even more impressive. Simcha and I met in Chicago at the IASAC table. I asked him what his interests were and was floored by how far ranging his areas of collecting are. I talked him into joining IASAC at the show. Dan Freeland and I have known each other for a number of years because of our memberships in Mich-TAMS. Dan and his wife, Kathy, are both avid collectors and exhibitors at the state and national level.

Your officers and trustees have been busy working to make the NC meeting the most enjoyable meeting yet for IASAC. If you are coming to the meeting, be sure to let us know your opinions of the meeting and how well your

elected officials are seeing to your wishes for the club. If you couldn't attend the meeting, I'd appreciate your reason/s for not attending. Whether it is the location, cost to travel, cost to stay at the convention site, ill health, lack of interest, family emergency, or whatever applies to you. I would really appreciate your feelings about this matter.

For now, keep hunting for those bars/rounds you want for your collection!

VP's Outlook

HEAR -YE, HEAR -YE, the President of IASAC, Doug Jennings has called for all Officers and Members to attend the annual meeting in Greensboro, NC on Oct 3. There is a full agenda to be discussed and your input is important to move the organization into the future and beyond. So if you have not made your reservations do not delay as time is getting short.

As I mentioned in the August issue of the "Bugle", silver is still at a premium and the older art bars are almost impossible to find. At the Blue Ridge show in August, which had over 200 dealers, I was only able to find a hand full of older bars and rounds. In most cases the dealers had "NO" silver to sell at all, in fact dealers are saying the manufacturers are telling them that delivery of orders are eight to ten weeks out. As to the spot price, it still is low and who knows what the future will bring.

I will once again be manning a club table at the annual FUN convention in January in Tampa Florida. This show with over 600 dealers and 12,000 to 15,000 attendees will be a good place to represent the club and hopefully get some new members. So if any of you members want to escape from the snow and cold weather for a few days the FUN show will be a great place to "warm up".

Here is hoping to see a lot of members at our annual meeting. This will be a great time to renew friendships with old acquaintances and meet and greet new attendees.

Happy Hunting!

Jim Best

NO mini AUCTION !!!!

Happy Halloween!!!

Top Signs That You're Too Old to Trick or Treat

10. You get winded from knocking on the door.
9. You have to have another kid chew the candy for you.
8. You ask for high fiber candy only.
7. When someone drops a candy bar in your bag, you lose your balance and fall over.
6. People say, "Great Keith Richards mask!" and you're not wearing a mask.
5. When the door opens you yell, "Trick or..." and can't remember the rest.
4. By the end of the night, you have a bag full of restraining orders.
3. You have to carefully choose a costume that won't dislodge your hairpiece.
2. You're the only Power Ranger in the neighborhood with a walker.
1. You avoid going to houses where your ex-wives live.

It was late Halloween and three young vampires went into a club and walked up to the bar.

"What will you have?" the cool looking bartender asked.

"I'll have a full glass of warm blood," the first replied.

"I'll have a full glass of warm blood, too, thanks," said the second.

"I'll have a full glass of warm plasma," said the third.

"OK, let me get this straight," the bartender said. "That'll be two bloods and a blood light?"

Q. Why was the student vampire tired in the morning?

A. Because he was up all night studying for his blood test!

Q. Why should a skeleton drink 10 glasses of milk a day?

A. It's good for the bones.

Q. What did the skeleton say to the vampire?

A. You suck.

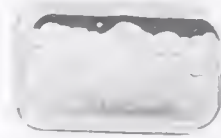

Q. What do they teach in witching school?

A. Spelling.

Q. Why didn't the skeleton go to the dance ?

A. Because he had no body to go with.

Nancy's Last Mailbag.....

Here it is my last missive to all of you I'd like to thank everyone for their support for the club during my tenure Thanks to **Doug Jennings** for his kind words in the last *Bugle*, and to **Randy Rush** who wrote "Thank you for all you have done for our club I wish you the very best in your future endeavors!" Thanks also to **Phyllis Eubanks** who emailed "How is the club doing? Getting new members? Thank you again for everything you have done for the club - **Don** said the club was Nancy"

From **Michael Turrini** comes news of the 2016 Vallejo Coin Show to be held Sunday, May 1 2016 at the Florence Douglas Senior Center in Vallejo For more information about this show go to www.solanocoinclub.com or contact Turrini at EMPEROR1@juno.com

Speaking of coin shows, I was thrilled to be able to attend the Hawaii All-Collectors Show in July when we were in Honolulu I have always wanted to go to this show, but we've never been to Hawaii at the right time There was every sort of Hawaiiana, and my daughter and I had fun browsing and buying a few items

Knowing that club member **Marion Kendrick** would be in attendance, I saved my visit to his booth for the last Marion has been an avid Brain Teasers' fan from the beginning and has often donated prizes for puzzle-players Here we are at the Honolulu Coin Club/HSNA table

To the business of our annual club ingot, if you placed an order this year you should be receiving it about the time this *Bugle* arrives It's now Labor Day weekend, and I have everything ready for mailing except for the bars, which should be in Tuesday's mail

SilverTowne has been deluged with business this year because the price of silver is so low It's also holiday time for them (Halloween and Xmas orders are now being processed), which adds to the bustling activity I've been informed that they will most likely not be producing bronze units in the future With each separate order, they have to clean the presses and re-set all the machinery and off-metals take a lot of time for very little return The new IASAC board will have to figure out what to do for 2016

That being said there was no problem with processing our order for 2015, since we were already in their schedule I'm anxious to see the enameled pieces, they have several colors and look great on the emailed sample IASAC produced 85 plain silver and 55 enameled pieces, plus 110 in antique bronze The unsold units will be sent for the meeting in Greensboro, and if you didn't order you can check with the club secretary-treasurer to see if any are left

I bid you a fond adieu

Elemetal Mint

The reverse of each 2 oz ultra high relief round features a Siren, a mythological creature that is half woman and endowed with beauty and an enchanting voice. The Siren gazes upon a drifting pirate ship as waves roar throughout the sea, crashing into the rocks beneath her.

Many tales of the Siren exist in Greek mythology, including Homer's "Odyssey." While her appearance was striking to sailors, it was the Siren's alluring and melodious songs that were irresistibly sweet, causing boats to crash on the rocks the Sirens were perched upon. If the seafarers were unable to resist their euphoric tones, a harrowing outcome awaited – oftentimes a gruesome death.

Some stories suggest that a Siren was capable of shedding her lower, mermaid-like body to look fully human and become more tempting to mariners. The earliest depictions of the Siren showed her as part woman, part bird. Depictions of the Siren after the 16th Century, however, show the upper body of a beautiful woman with the tail of a fish.

The common obverse of the Privateer Series depicts a human skull above a ship's wooden wheel. A tattered rope winds through the wheel completing the design that is encircled by inscriptions of "NO PREY NO PAY" and "2 oz. FINE SILVER .999." Each 2 oz Siren Ultra High Relief Silver Round is Privately Minted at the Elemetal Mint.

Provident Metals

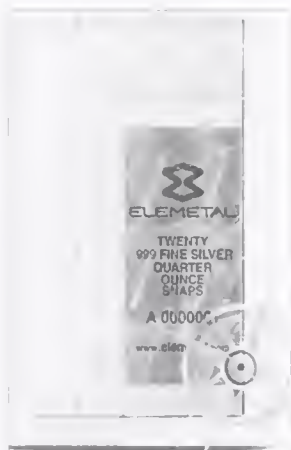

Each five ounce IRA approved silver bar is divisible into 20 one-quarter ounce bars.

Provident Metals is proud to offer the second bar in the Elemetal Mint's fractional silver bar line, the Snap Bullion™ 5 oz Silver Bar. Each bar consists of 20 one-quarter troy ounce divisible bars. This fractional Silver bar was manufactured by the Elemetal Mint and consists of five ounces of .999 fine silver. The Elemetal Mint, an ISO9001 facility, employs the strictest production quality and metal purity standards, ensuring that each silver bar qualifies for a self directed Precious Metals IRA.

Each of these 5 oz silver bars is easily divisible into 20 one-quarter ounce "Snaps". The obverse of each Snap carries the Snap Bullion™ logo and is inscribed with "ONE QUARTER OUNCE" and ".999 FINE SILVER".

The reverse of each snap carries the Elemetal Mint logo, a stylized "E" and "M" joined in the shape of a lemniscate. The lemniscate is the mathematical symbol for infinity, and symbolizes the breadth of Elemetal's involvement in the bullion industry and commitment to the sustainable production of bullion.

The Elemetal Mint is a partnership between three of the most respected names in the precious metals industry: Provident Metals, Ohio Precious Metals (OPM), and NTR Metals. The Elemetal Mint has leveraged Provident Metal's qualitative knowledge of bullion production and ability to produce consumer-oriented content, OPM's production expertise, and NTR Metals' production capacity to produce high quality gold, silver, and copper bullion and offer it at the lowest possible prices.

In an age of transgender, political correctness, societal decline and indoctrinated slaves trading their freedom for "safety", the 2015 Silver Shield "A Hero Is Born" pays tribute to the boy hero in all men. This immature warrior spirit helps boys break from their parents and brave new worlds. It is the force within that overcomes fear and boldly takes a stand in the corrupt world.

This hero spirit is seen in our daring boys, rambunctious rebels, and creative geniuses. It is seen through our history, with a young Andrew Jackson who did not bow to a British officer to wash his boot. It is seen in our fiction, like Luke Skywalker who was the boy that fought the empire as his inner force awakened. It is the primal force of all that is good in this universe.

A healthy society would provide fertile ground for these boys to test their limits and initiate them into more mature men. Instead we buffer them and only give them pseudo initiations into student debt colleges, corporations and the military to be used as pawns to cunning men. We need brave men to step up and do what is right against all odds. Even more importantly, we need to graduate these immature fearless boy heroes, into mature regenerative warrior kings to protect all that is good in this world.

The 2015 Silver Shield "A Hero Is Born" features the young boy hero that will eventually grow into our Argyraspides warrior king. His unbroken spirit dreams of saving the innocent and slaying the dragons of his world.

The only way to solve the unconscious collective problems we clearly see in this world, is conscious individual solutions like fostering more heroes in our lives.

The 2015 "A Hero Is Born" is the perfect way to reward the hero in your world with real tangible wealth.

The 2015 "A Hero is Born" is available at **SDBullion** now in a 1 ounce brilliant uncirculated strike or a 1 ounce proof-like strike with an air-tite display case and a unique red and gold numbered Certificate of Authenticity.
